

EPICS IN VIETNAM

JOIN EPICS FOR A CHANCE TO WIN $500

The Engineering Projects in Community Service course, known as EPICS, is an international award-winning social entrepreneurship program. Student teams design, build and deploy systems to solve engineering-based problems for charities, schools and other not-for-profit organizations. Our students aren't waiting to graduate to make a difference - they are tackling real-world problems today.

YOU CAN BE AN ENGINEER NOW!

This is a great way to gain practical leadership experience while you learn

Develop your communication skills – writing, speaking, graphic design – that help you sell your ideas to others

Completed student projects compete for a chance to win up to $500 USD

Learn to budget and spend real money!

Receive up to $50 USD for materials to complete your project

Get valuable team building skills and experience, and if you are really good, win awards that light up your resume!

ADDITIONAL BENEFITS

The Final EPICS Showcase is used as a real-world vehicle to provide students with experience focusing their ideas, meeting deadlines, writing a business plan and presenting their ideas to the world. These skills prepare students for a competitive work environment.

Classes meet only 2 hours a week from March 25 – May 31, 2018 and culminate with a national EPICS Student Project Showcase where three student projects will be awarded $500 USD.

ENROLL TODAY

Your school is one of the first where EPICS is launching in Vietnam! Enrollment at your school is limited, and is open to all students of all disciplines. Visit us online to enroll directly with your professor today.
