GROUP 11.2 – SUPPORT OF ARTS AND HERITAGE

SDG 11 SUSTAINABLE CITIES AND COMMUNITIES

11.2.1 Public access to buildings

Public access to buildings, monuments, or heritage landscapes of cultural significance.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 2: Promoting community connection and service (Objective 2.1)	Enhancing community service projects (Number of projects; Number of project beneficiaries; Community satisfaction rate)	Formulate and issue Regulations/Guidelines on opening the campus and receiving community and external visitors to tour IUH's architectural works, landscape, and cultural/traditional spaces; clearly defining access levels (free of charge or specific conditions).	Regulatory and guidance document on receiving visitors to cultural and historical architectural works/landscapes, and the catalog of facilities open to the public.	Office of Human Resources and Administration, Office of Facilities Management, Information and Communitcation Center	Q1 – Q2/2025
Thrust 2: Promoting community connection and service	Diversifying communication media and content (Number of media channels; Number of news items; Number of interactions)	Compile introductory materials (brochures, campus tour maps, experience videos) and publish an online information page on campus history, architecture, and landscape along with opening hours and rules for public access.	Promotional publications (brochures, digitized campus map); public URL links on visitor information published on the university portal.	Information and Communitcation Center, Office of Facilities Management	Q2/2025
Thrust 2: Promoting community connection and service	Organizing community service activities (Number of campaigns; Number of participating students/community members; Satisfaction rate)	Organize Open Day events, campus experience programs, and guided tours introducing IUH's traditional, cultural, and architectural works for high school students, alumni, and local residents in 2025.	Plans and organization records of Open Day/Campus Tour sessions; lists of visiting delegations and photos of actual experience activities.	Office Of Political Affairs And Student Support, Youth Union – Student Association	Q1 – Q4/2025
Thrust 3: Enhancing vibrant student life and building a modern campus	Developing a green campus; Upgrading and maintaining infrastructure (Improving facility maintenance efficiency)	Maintain and preserve architectural landscapes, green spaces, and the traditional room; install a signage system and descriptive boards for architectural facilities to serve visitors.	Acceptance records for landscape maintenance/upgrading, traditional exhibition room preservation, and the cultural/architectural signage system.	Office of Facilities Management, Office of Services	Q2 – Q3/2025
Thrust 2: Promoting community connection and service	Expanding community connection activities (Number of project beneficiaries; Community satisfaction rate)	Track and log the actual number of external visitors; conduct opinion surveys and prepare a summary report on public accessibility to cultural and landscape facilities in 2025.	Summary report for 2025 on public access activities: visitor count, reception logs, and results of public satisfaction surveys.	Office of Human Resources and Administration, Information and Communitcation Center	Q4/2025

Industrial University of Ho Chi Minh City

Regulations and Procedures for Public and External Visitor Access to IUH's Cultural and Historical Heritage Spaces

Article link

https://lib.iuh.edu.vn/news/detail?id=mot-so-hinh-anh-thu-vien-iuh-giang-duong-thu-hai-cua-sinh-vien#heading-7

Activity description

On 20 March 2026, the IUH Library Centre issued Procedure No. 01/2026/QĐ-TV on visitor reception at the University's Traditional Exhibition Room. The procedure establishes access for the wider community, extending beyond university staff and students to external visitors, including high school students, experts, international partners and members of the local community. Visitors are permitted free access to the exhibition space, original historical materials, digitised records and the University's cultural heritage projects made available through its Library Information Portal. The procedure also sets out requirements for visitor reception, guided tours, visitor registration and the preservation of historical materials.

Article title 2

Organisation of Exhibition Spaces and Presentation of Historical and Cultural Heritage at IUH's Traditional Exhibition Room

Article link

https://lib.iuh.edu.vn/news/detail?id=mot-so-hinh-anh-thu-vien-iuh-giang-duong-thu-hai-cua-sinh-vien#heading-7

Activity description

IUH's Traditional Exhibition Room is organised into five main areas: the Central and Historical Area, featuring university leaders from different periods, the traditional display wall and significant events; the Education and Research Area; the Awards and Achievements Area; the International Relations and Updates Area; and the Union and Youth Activities Area. The exhibition spaces are systematically arranged, with digitised resources supporting public and external visitor access to information about more than 70 years of the University's development. Visitors are provided with free access to the exhibits, guided explanations and opportunities to explore archived historical materials.

Article title 3

Visitor Logs Documenting Visits by External Guests, High School Delegations and International Visitors to IUH's Cultural Heritage Facilities

Article link

https://lib.iuh.edu.vn/news/detail?id=mot-so-hinh-anh-thu-vien-iuh-giang-duong-thu-hai-cua-sinh-vien#heading-7

Activity description

Visitor logs maintained by IUH's Traditional Exhibition Room record more than 1,136 visits by external guests. Notable groups include a delegation of 270 students and teachers from Nguyen Trung Truc High School (An Giang), 210 students from Huynh Tan Phat High School (Ben Tre), and 200 students from Vinh Kim High School (Dong Thap), together with delegations of experts and international visitors from Japan, Thailand, France, Malaysia, Australia, China, Taiwan and other countries. These visits are documented through visitor logs, guest lists and archived photographs, providing evidence of public access to the University's cultural and historical heritage facilities.

11.2.2 Public access to libraries

Public access to libraries, books, and publications.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 3: Modern, comfortable facilities providing vibrant student life experiences	Upgrading library services (Satisfaction rate with library resource materials; Satisfaction rate with library services)	Review, supplement, and issue the IUH Library Usage Regulations clearly defining external readers/public users; specifically demarcating accessible resource scopes (on-site print materials, open digital resources).	Decision issuing Library Regulations containing terms specifying rights and responsibilities of external public readers.	Library Center	Q1 – Q2/2025
Thrust 2: Promoting community connection and service	Expanding community connection activities towards active citizenship (Number of communities served; Community satisfaction rate)	Develop and issue registration procedures for external reader cards/visitor cards; establish convenient online or counter registration procedures without unreasonable barriers.	Guidance procedure for issuing external visitor/reader cards and online application forms for library access.	Library Center	Q2/2025
Thrust 2: Promoting community connection and service	Diversifying media (Number of media channels; Diversification of news content; Interaction counts)	Publicly publish all information regarding operating hours, eligible target groups, open resource catalogs, and access conditions on the Library e-portal and official IUH website.	URL links dedicated to external reader services; public information posts on the library website.	Library Center, Information and Communitcation Center	Q2/2025
Thrust 3: Modern, comfortable facilities providing vibrant student life experiences	Upgrading library services (Search queries, electronic document access; Book borrowing/returning counts)	Establish specialized search areas and reading rooms for external readers; configure user permission access for the digital library system while ensuring copyright compliance.	Dedicated search area operationalized; permission assignment records for public accounts in digital library management software.	Library Center, Center of System Management	Q2 – Q3/2025
Thrust 2: Promoting community connection and service	Enhancing community service projects (Number of project beneficiaries; Community satisfaction rate)	Track and record actual usage data of external visitors (entry counts, on-site reading, resource searches) and compile a summary report on public library access in 2025.	Summary report for 2025 on public library services: statistical table of external readers, visitor card issuance logs, and reader feedback.	Library Center	Q4/2025

Library Registration Procedures and Access Arrangements for External Users

Article link

https://lib.iuh.edu.vn/news/detail?id=mot-so-hinh-anh-thu-vien-iuh-giang-duong-thu-hai-cua-sinh-vien

Activity description

The Library Centre of Industrial University of Ho Chi Minh City (IUH) provides access to external users, alongside students, lecturers, staff and researchers. External users may apply for library access and obtain a library card upon presenting valid identification and completing registration procedures in accordance with the Library's guidelines. These arrangements facilitate community access to library resources and establish procedures for the fair and transparent administration of access.

Providing Library Facilities and Learning Spaces for the Community

Article link

https://lib.iuh.edu.vn/news/detail?id=mot-so-hinh-anh-thu-vien-iuh-giang-duong-thu-hai-cua-sinh-vien

Activity description

The IUH Library is equipped with reading tables, information-search computers, reading rooms, research rooms and multimedia spaces to serve library users. Library rules on appropriate conduct, maintaining order and protecting shared facilities are implemented to support learning and research activities. These facilities provide spaces for study and research for both university members and external users.

GROUP 11.2 – SUPPORT OF ARTS AND HERITAGE

SDG 11 SUSTAINABLE CITIES AND COMMUNITIES

11.2.3

Public access to museums

Public access to museums, exhibition spaces, galleries, artworks, and artifacts.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 2: Promoting community connection and service	Enhancing community service projects (Number of projects; Beneficiaries; Community satisfaction rate)	Review, summarize catalogs, and issue regulations opening doors to the public/external guests to access the Traditional Room, STI display space, art galleries, and artifact collections; explicitly setting fees (100% free).	Decision issuing Regulations/Guidelines for public cultural/historical exhibition spaces, attached with a list of free public exhibition rooms.	Library Center	Q1 – Q2/2025
Thrust 2: Promoting community connection and service	Diversifying media (Number of media channels; Content diversification; Interaction counts)	Publish opening schedules, visitor guidelines, artifact captions, and build a virtual gallery/3D Virtual Tour section of the Traditional Room on the university website.	URL links to public exhibition schedules; digitized artifact caption publications on the IUH portal.	Information and Communitcation Center, Library Center	Q2/2025
Thrust 2: Promoting community connection and service	Organizing community service activities (Number of campaigns; Number of participants; Satisfaction rate)	Organize academic exhibitions, STI innovation display days, and art design exhibitions open freely to the local community, high school students, and partners in 2025.	Exhibition organization plans; public/partner invitation letters; photo archives, visitor lists, and event media news items for 2025.	Youth Union – Student Association, Specialized Faculties/Institutes, Information and Communitcation Center, Library Center	Q1 – Q4/2025
Thrust 3: Modern, comfortable facilities providing vibrant student life experiences	Upgrading infrastructure (Completion level of facility upgrade projects; Enhancing maintenance efficiency)	Invest in upgrading, maintaining, and digitizing artifacts at the IUH Traditional Room, STI achievement display areas, and art spaces to ensure aesthetic and safe display conditions.	Facility upgrade acceptance records for exhibition spaces, artifact preservation logs, and bilingual caption signage systems.	Office of Facilities Management	Q2 – Q3/2025
Thrust 2: Promoting community connection and service	Expanding community connection activities towards active citizenship (Beneficiaries; Community satisfaction rate)	Track and log external visitor numbers to exhibition spaces; conduct surveys and compile a cultural impact report serving the community in 2025.	Summary report for 2025 on public exhibition/traditional room opening: actual public visitor count and survey satisfaction results.	Library Center	Q4/2025

Introduction to the Traditional Exhibition Room of Industrial University of Ho Chi Minh City

Article link

https://lib.iuh.edu.vn/news/detail?id=phong-truyen-thong

Activity description

The Traditional Exhibition Room of Industrial University of Ho Chi Minh City (IUH) preserves and displays valuable photographs, documents and artefacts documenting the University's establishment and development. The exhibition space is carefully arranged to accommodate visits by members of the public, university staff, lecturers and students, providing opportunities to explore the University's historical and cultural heritage. Information about the exhibition and its layout is publicly available through the IUH Library Centre's online information portal.

Article title 2

Visitor Reception Procedures and Guidelines for IUH's Traditional Exhibition Room

Article link

https://lib.iuh.edu.vn/news/detail?id=phong-truyen-thong

Activity description

On 20 March 2026, the IUH Library Centre issued Procedure No. 01/2026 on visitor reception. The procedure establishes a policy of broad public access, allowing external visitors, including members of the local community, high school students, institutional partners and independent visitors, to access the Traditional Exhibition Room without discrimination. Visitors may register directly or through the Library's information portal. The procedure specifies arrangements for visitor reception, guided tours, visitor logbook entries, photographic documentation and coordination of security and parking facilities to facilitate public visits.

Article title 3

Visitor Reception Activities at IUH's Traditional Exhibition Room

Article link

https://lib.iuh.edu.vn/news/detail?id=phong-truyen-thong

Activity description

IUH welcomes visiting delegations, school students, institutional partners and members of the public from outside the University. During their visits, guests receive guided introductions to the University's historical artefacts, archival photographs and cultural heritage displayed in the Traditional Exhibition Room, alongside its digital heritage resources. Visitors are instructed to record their visits in the guestbook and are provided with free assistance throughout their visit. Photographs and visitor records are retained as evidence of the University's commitment to public access and community engagement.

Industrial University of Ho Chi Minh City

GROUP 11.2 – SUPPORT OF ARTS AND HERITAGE

SDG 11 SUSTAINABLE CITIES AND COMMUNITIES

11.2.4 Public access to green spaces

Free public access to open spaces and green spaces.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 2: Promoting community connection and service	Enhancing community service projects (Number of projects; Beneficiaries; Community satisfaction rate)	Issue Campus Access Regulations/Guidelines allowing local residents and visitors to access and use open spaces, green parks, outdoor sports grounds, and rest areas free of charge during scheduled hours.	Decision issuing Campus Access Regulations for the community; Signboards specifying open hours and free open-space usage rules.	Office of Human Resources and Administration, Office of Facilities Management, Office of Services	Q1 – Q2/2025
Thrust 3: Modern, comfortable facilities	Building a green campus (Increasing green index & canopy cover; Number of tagged trees); Upgrading infrastructure	Maintain and care for green landscapes, lawns, outdoor benches, and walking paths; map green spaces and install directional signage guiding the public to open areas.	Green Space Map of IUH campus; Acceptance records for green lawn refurbishment, outdoor public utilities, and signage systems.	Office of Facilities Management, Office of Services	Q2 – Q3/2025
Thrust 2: Promoting community connection and service	Diversifying media (Number of channels; Content diversification; Interaction counts)	Publicly post on the university website and media channels the green space map, entrance regulations, and free access hours for the surrounding local community.	URL links to the public green space info section on the IUH portal; promotional posts introducing public utilities to local residents.	Information and Communitcation Center, Office of Facilities Management	Q2/2025
Thrust 2: Promoting community connection and service	Organizing community service activities (Number of campaigns; Participants; Satisfaction rate)	Organize community cultural and sports events, environmental festival days, and outdoor wellness activities at IUH plazas and gardens with participation from local residents and partners in 2025.	Event organization plans for outdoor environmental/sports events; participant rosters of residents/students; actual photo stories.	Youth Union – Student Association, University Trade Union, Faculties/Institutes	Q1 – Q4/2025
Thrust 2: Promoting community connection and service	Expanding community connection activities towards active citizenship (Beneficiaries; Satisfaction rate)	Maintain gate security logs for external visitors using public spaces; conduct satisfaction surveys and compile a summary report on green space access in 2025.	Summary report for 2025 on public open space access: estimated resident usage statistics and community feedback survey results.	Office of Human Resources and Administration, Office of Facilities Management, Office of Services, Office of Dormitory Management	Q4/2025

IUH Maintains Green Spaces and Landscaped Areas at Its Nguyen Van Bao Campus

Article link

https://iuh.edu.vn/vi/tam-nhin-su-mang.html

Activity description

Industrial University of Ho Chi Minh City (IUH) places importance on developing green spaces across its campus, in line with its commitment to creating a sustainable learning environment. At the Nguyen Van Bao campus, located at 12 Nguyen Van Bao Street, trees and landscaped areas are distributed along internal roads, courtyards and spaces between buildings. The University's green space layout plan identifies the locations and types of trees, supporting landscape management and the organisation of outdoor spaces across the campus. These green spaces contribute to the campus landscape and help create more suitable outdoor environments for learning, working and daily activities at IUH.

IUH Develops Green Landscapes at Its Quang Ngai Campus

https://iuh.edu.vn/vi/kham-pha-iuh/2-nam-tai-quang-ngai-2-nam-tai-tphcm-tiet-kiem-chi-phi-trai-nghiem-da-moi-truong-quyen-loi-tron-ven-2022.html

Activity description

The Quang Ngai Campus of Industrial University of Ho Chi Minh City (IUQ) features trees and outdoor spaces, as presented in the University's publicly available information. Photographs show trees distributed throughout the campus, contributing to the landscape and providing outdoor spaces for students, lecturers and staff. Green landscapes form part of the learning environment at IUQ, in line with IUH's broader direction towards developing green and sustainable educational facilities.

Industrial University of Ho Chi Minh City

GROUP 11.2 – SUPPORT OF ARTS AND HERITAGE

SDG 11 SUSTAINABLE CITIES AND COMMUNITIES

11.2.5 Arts and heritage contribution

Contributions to local arts through public performances.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 2: Promoting community connection and service	Creating vibrant extracurricular activities on campus (Satisfaction rate; Additional activity count; Participant count)	Plan and maintain regular activities for student/trade union art teams and clubs (task force art team, music bands, drama, choir, modern dance, folk music); allocate budgets for practice and performance gear.	Art performance activity plan for 2025; Roster of established art teams/clubs with approved periodic rehearsal schedules.	Youth Union – Student Association, University Trade Union, Office Of Political Affairs And Student Support	Q1 – Q4/2025
Thrust 2: Promoting community connection and service	Encouraging student participation in community service (Number of campaigns; Participants; Satisfaction rate)	Organize art performances serving the local community: performances at social protection centers, shelters, cultural exchanges in Green Summer campaigns, worker youth festivals, and off-campus folk events.	Organization files for community performance programs (plans, thank-you letters from local authorities, photos, performer/audience lists).	Youth Union – Student Association, Office Of Political Affairs And Student Support	Q1 – Q4/2025
Thrust 2: Promoting community connection and service	Expanding community connection activities (Number of courses/training events educating students on social/humanistic issues; Satisfaction rate)	Organize music nights, youth melody festivals, and traditional music performances at IUH plazas or auditoriums, open freely to the public, local residents, and high school students.	Documentation of public-open art performance events (posters, public invitation tickets, detailed performance programs, photo/video reports).	Youth Union – Student Association, University Trade Union, Information and Communitcation Center	Q1 – Q4/2025
Thrust 2: Promoting community connection and service	Diversifying media (Number of channels; Content diversification; Interaction counts)	Broadcast schedules of public art performances widely on the IUH website, social networks, and local media; issue free entry tickets/codes to the community.	URL links of public performance schedule announcements; promotional publications (posters/banners) indicating open venues and times.	Information and Communitcation Center, Youth Union – Student Association	Q1 – Q4/2025
Thrust 2: Promoting community connection and service	Enhancing community service projects and Assessing community satisfaction rates	Keep track of and count actual public art performances held in 2025.	Summary report for 2025 on community art contributions: Detailed catalog of each performance (date, title, performing group, venue, public audience makeup) and survey results.	Youth Union – Student Association, Office Of Political Affairs And Student Support, University Trade Union	Q4/2025

Activity description

On 30 September 2025, Industrial University of Ho Chi Minh City (IUH) held a large-scale Freshman Welcome Festival and music concert outside its campus at Military Zone 7 Stadium in Ho Chi Minh City. The event attracted more than 12,000 students, student union members and members of the public. The programme featured musical performances, contemporary music and distinctive artistic presentations, creating a lively setting for cultural exchange and extending opportunities for community participation in student cultural activities. The event reflected the University's and the Youth Union–Student Association's efforts to organise major artistic programmes accessible to a wider audience.

Sixteen Faculty-Level Cultural Performances and the University-Wide "Thanh Am Viet Nam" Arts Festival in 2025

Article link

https://fet.iuh.edu.vn/news.html%40detail%40279%40899%40Hoi-dien-van-nghe-Sinh-vien-toan-truong-Thanh-am-Viet-Nam

Activity description

In 2025, IUH organised a series of cultural and artistic performances, including 16 faculty- and institute-level arts festivals with more than 12,000 participations, followed by the university-wide "Thanh Am Viet Nam" (Sounds of Vietnam) Arts Festival. The programme featured hundreds of musical, dance and theatrical performances celebrating Vietnamese music and traditional cultural heritage. The performances were organised to a high standard, with more than 15 events held throughout the year, and were open to students and members of the local community. Together, these activities provided opportunities for public engagement with the performing arts and Vietnamese cultural traditions.

Industrial University of Ho Chi Minh City

GROUP 11.2 – SUPPORT OF ARTS AND HERITAGE

SDG 11 SUSTAINABLE CITIES AND COMMUNITIES

11.2.6 Record and preserve cultural heritage

Recording and preserving intangible cultural heritage.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 1: Pioneering in education and research	Increasing quality of national/international publications (Number of publications in VN/EN) & Promoting tech transfer	Approve and implement scientific research projects, digitization projects, and field surveys to record, document, and archive folk cultural values, indigenous knowledge, languages, and traditional customs.	Decision approving scientific research/cultural projects; Field survey and research result reports; Scientific papers or monographs on intangible heritage.	Office of Science Management and International Affairs, Specialized Faculties/Institutes	Q1 – Q4/2025
Thrust 2: Promoting community connection and service	Enhancing community service projects (Number of projects; Beneficiaries); Encouraging student participation	Sign MOUs/contracts with Department of Culture and Sports, heritage management agencies, local authorities, or artisans to collaborate on preserving, collecting, and sustaining intangible heritage.	Memoranda of Understanding (MOUs)/Collaborative preservation contracts signed between IUH and cultural bodies/local governments.	Office of Science Management and International Affairs, Office of Human Resources and Administration, Youth Union – Student Association	Q1 – Q3/2025
Thrust 3: Modern, comfortable facilities providing vibrant student life experiences	Developing digital learning resources (Annual digital material ratio increase; Satisfaction rate with e-learning materials)	Build digital databases and multimedia repositories (audio/video recordings of dances, songs, rituals, thematic e-books) on intangible cultural heritage integrated into the e-library system for research and public lookup.	Digitized audio-visual material sets and intangible heritage databases integrated and archived on the IUH Digital Library portal.	Library Center, Center of System Management	Q2 – Q4/2025
Thrust 2: Promoting community connection and service	Expanding community connection activities towards active citizenship (Number of courses/training events educating students on social/humanistic issues)	Organize heritage skill transfer workshops, artisan talks, and traditional knowledge dissemination programs for students and the community to transfer and preserve local culture.	Planning and organizational files for heritage transfer workshops/talks; lists of participating artisans, students, and residents; documentary photo stories.	Youth Union – Student Association, University Trade Union, Information and Communitcation Center, Faculty of Commerce and Tourism	Q2 – Q4/2025
Thrust 2: Promoting community connection and service	Diversifying media (Content diversification) & Assessing community satisfaction rate	Publish heritage preservation outcomes on the IUH communication portal; aggregate 2025 activity reports detailing heritage subjects, field sites, documentation methods, and preservation transfer results.	URL links to published heritage products; Summary report for 2025 on IUH's intangible cultural heritage documentation and preservation projects. Regulations and Procedures for Digitising and Archiving IUH's Institutional Heritage for Public Access

Article link

https://lib.iuh.edu.vn/news/detail?id=mot-so-hinh-anh-thu-vien-iuh-giang-duong-thu-hai-cua-sinh-vien#heading-7

Activity description

The IUH Library Centre issued Procedure No. 01/2026/QĐ-TV to standardise the documentation, digitisation and archiving of the University's 70-year historical and cultural heritage. These activities extend beyond the display of artefacts in the Traditional Exhibition Room to include the development of a digital platform for preserving photographs, documents and historical materials, as well as ensuring access for visitors from Vietnam and abroad. Through these efforts, IUH aims to provide free access to its institutional heritage for members of the public, school students, university students and local communities, contributing to the preservation and dissemination of the University's educational and cultural heritage.

Article title 2

Visitor Records, Community Engagement and the Transmission of IUH's Historical and Cultural Heritage, 2025–2026

Article link

https://iuh.edu.vn/vi/tin-tuc/iuh-lan-toa-van-hoa-doc-trong-cong-dong-hoc-duong-2181.html

Activity description

Visitor logs maintained by IUH's Traditional Exhibition Room and Library record more than 1,136 visits for tours, learning and research. Visitor reception activities include delegations of high school students from An Giang, Ben Tre and Dong Thap; experts and international student delegations from Japan, South Korea, Thailand, France, Malaysia, Australia, China and Taiwan; and groups of university students undertaking academic assignments. Guided presentations, visitor logbooks and the digitisation of documentary materials support the documentation of these activities and help communicate IUH's educational history and cultural heritage to the wider community.

Industrial University of Ho Chi Minh City

GROUP 11.4 – SUSTAINABLE PRACTICES

SDG 11 SUSTAINABLE CITIES AND COMMUNITIES

11.4.1 Sustainable practices targets

Measuring and setting targets for sustainable commuting.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 3: Modern, comfortable facilities providing vibrant student life experiences	Building a green campus (Reducing carbon footprint - Waste conversion/recycling CO2 emissions)	Conduct an annual commuting survey across all students, faculty, and staff to establish baseline data on the breakdown of walking, public bus, EV, carpooling, and emitting personal vehicles.	Baseline dataset and Commuting Survey Report of IUH learners and staff for 2025.	Institute of Environmental Science, Engineering and Management, Office of Testing and Quality Assurance, Youth Union – Student Association	Q1 – Q2/2025
Thrust 3: Modern, comfortable facilities providing vibrant student life experiences	Building a green campus (Participation in green campus project)	Formulate and issue the Green Transportation and Sustainable Commuting Plan/Policy for 2025–2030; defining specific quantitative targets: increasing public transport/EV usage annually and reducing travel carbon emissions.	Decision issuing University-level Sustainable Transport Development Plan effective in 2025 attached with quantitative targets.	Office of Human Resources and Administration, Institute of Environmental Science, Engineering and Management, Office of Facilities Management	Q2/2025
Thrust 3: Modern, comfortable facilities providing vibrant student life experiences	Advanced IT infrastructure (Implementing Big Data and IoTs)	Establish a Dashboard module to monitor sustainable commuting data and estimate equivalent CO2 emission reductions from the IUH community's sustainable travel habits.	Dashboard system tracking sustainable commuting rates and carbon emission reduction metrics integrated into the university digital governance platform.	Center of System Management, Institute of Environmental Science, Engineering and Management	Q2 – Q3/2025
Thrust 2: Promoting community connection and service	Expanding community connection activities (Increasing awareness activities on active citizenship)	Organize "Green Transport – Carbon Footprint Reduction" media campaigns and festivals, encouraging learners and workers to use buses, EVs, and walking; adding parking spots for e-bikes/bikes and public transport links.	Green Transport Festival media plan; Roster of participating students and staff; Photos of EV parking grounds and sustainable transport support facilities.	Youth Union – Student Association, University Trade Union, Information and Communitcation Center, Office of Facilities Management	Q2 – Q4/2025

Baseline Survey and Assessment of Commuting Patterns at IUH

Article link

https://docs.google.com/forms/d/e/1FAIpQLScl8pacx5C_eW48ftdvriaC5tJ0GFvPIF4T5xJzBEgNrG7TUg/viewform

Activity description

To establish baseline data for sustainable transport targets under SDG 11, Industrial University of Ho Chi Minh City (IUH) conducted a survey of commuting patterns among lecturers, staff and students. The survey received 118 valid responses, with 84.7% of respondents using personal motorised transport as their primary commuting mode (78.8% petrol-powered motorcycles and 5.9% cars). Sustainable transport modes accounted for 14.4%, including electric vehicles, buses, metro, walking and cycling. The survey also found that 69.5% of respondents travelled less than 10 km and 72.9% commuted at least five days per week. These findings provide baseline information for assessing commuting-related emissions and informing future sustainable transport policies and infrastructure planning at IUH.

Article title 2

Developing a Commuting Measurement Tool and Assessing Intentions to Shift Towards Sustainable Transport

Article link

https://docs.google.com/forms/d/e/1FAIpQLScl8pacx5C_eW48ftdvriaC5tJ0GFvPIF4T5xJzBEgNrG7TUg/viewform

Activity description

IUH developed a standardised survey tool to measure commuting behaviour and assess intentions to adopt sustainable transport. The findings showed strong agreement on the harmful environmental effects of petrol-powered vehicles (C1 = 4.03/5; 72.9% agreement). However, only 48.3% intended to switch to greener transport within one to two years (C4 = 3.50). The intention to shift increased to 66.9% when supportive measures were considered, including incentive policies (C6 = 3.94) and organised shuttle or shared transport services (C5 = 3.89). The three main barriers identified were inadequate bus routes (44.9%), long travel distances (35.6%) and insufficient electric vehicle charging stations (31.4%).

Article title 3

Commuting Assessment Report and Proposed Green Transport Action Plan for IUH

Article link

https://www.studocu.vn/vn/document/truong-cao-dang-thuc-hanh-fpt/thuong-mai-dien-tu/tieu-luan-ck-nhom-1-hhhhh/59045440?sid=f3846f52-3711-48ee-950c-80f9b6f5e3e61792739292

Activity description

Based on commuting survey data collected in 2026, IUH's Systems Administration Centre prepared an assessment report and proposed specific green transport actions for the University. The report found that 46.6% of respondents prioritised switching to electric vehicles, including electric motorcycles, bicycles and cars, while 15.3% preferred buses or metro services. To increase the use of sustainable transport, the report identified three priority measures: (1) introducing shuttle bus services (43.2% support); (2) providing preferential parking policies or parking fee assistance for electric vehicles (38.1%); and (3) investing in safe electric vehicle charging stations across IUH campuses (34.7%).

GROUP 11.4 – SUSTAINABLE PRACTICES

SDG 11 SUSTAINABLE CITIES AND COMMUNITIES

11.4.2

Promote sustainable commuting

Taking action to promote sustainable commuting.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 3: Modern, comfortable facilities (Objectives 3.1 & 3.2)	Building a green campus (Participation in green campus project) & Upgrading infrastructure	Invest in and complete green vehicle infrastructure: installing EV charging stations, constructing sheltered bike/EV parking areas, and painting priority pedestrian/bike lanes on campus.	Technical acceptance records for EV charging stations; Master plan map for sheltered bicycle/EV parking grounds; Photos of operational facilities.	Office of Facilities Management, Institute of Environmental Science, Engineering and Management	Q1 – Q3/2025
Thrust 3: Modern, comfortable facilities (Objective 3.1)	Increasing student utility services (Affordable campus accommodation; % student satisfaction with utility services)	Operate an internal shuttle bus system connecting campuses/dormitories with public bus hubs; implement bus fare subsidy policies and issue discounted bus passes to students and staff.	Contract for internal shuttle bus transportation services; Decision issuing public transit fare subsidy policies and beneficiary lists.	Office of Dormitory Management and Services, Office of Facilities Management, Office Of Political Affairs And Student Support	Q1 – Q4/2025
Thrust 3: Modern, comfortable facilities (Objective 3.2)	Advanced IT infrastructure (Implementing digitized campus utility management apps)	Develop carpooling/ridesharing features on the student mobile app/internal portal; integrate a smart digital map displaying real-time public bus routes passing through IUH campuses.	Interface layout of carpool match module and real-time public bus tracking on IUH App; User manuals for learners and staff.	Center of System Management, Youth Union – Student Association, Office Of Political Affairs And Student Support	Q2 – Q3/2025
Thrust 2: Promoting community connection and service (Objective 2.1)	Expanding community connection activities (Enhancing active citizenship awareness activities)	Organize the "Green Transport Festival" campaign series, launching walking and cycling challenges for the environment; setting up training point bonuses and awards to encourage weekly green commuting.	Green Transport Festival organizational plan; Rosters of challenge participants; Decisions awarding active collectives and individuals.	Youth Union – Student Association, University Trade Union, Office Of Political Affairs And Student Support	Q2 – Q4/2025
Thrust 2: Promoting community connection and service (Objective 2.3)	Diversifying communication channels and content (Number of channels; News content diversity; Interaction counts)	Establish a public green transport section on the IUH website; compile an impact report assessing sustainable commuting actions and measuring travel behavior shifts in 2025.	URL link to the green transport information page on the IUH website; Summary report for 2025 on sustainable commuting promotion results.	Information and Communitcation Center, Institute of Environmental Science, Engineering and Management	Q4/2025

IUH Promotes Sustainable Commuting Through Public Transport Awareness and Student Mobility Guidance

Article URL

https://tqa.iuh.edu.vn/sdgs-article-2/iuh-promotes-sustainable-commuting-through-public-transport-awareness-and-student-mobility-guidance/

Activity Description

Industrial University of Ho Chi Minh City (IUH) promotes sustainable commuting through student-focused communication materials. The documented activities include public transport guidance for travel to Military Region 7 Stadium, information on student identification card benefits that may include bus fare discounts, and a bus awareness poster highlighting affordability and environmental considerations. These materials encourage students to consider public transport and make informed mobility choices. However, the available evidence does not establish increased public transport use, verified emissions reductions or the original publication dates of all three activities. Further verification is required to demonstrate their relevance to the 2025 reporting year.

IUH Undergraduate Academic Regulations 2025

Article link

https://pdt.iuh.edu.vn/quy-che-dao-tao

Activity description

Industrial University of Ho Chi Minh City (IUH) issued its Undergraduate Academic Regulations under Decision No. 3162/QĐ-ĐHCN dated 1 October 2025. Article 8 of the Regulations provides for the delivery of courses through a combination of face-to-face and online teaching. Under this provision, online teaching may account for up to 30% of the total instructional hours of an academic programme in the regular education system. This policy establishes a regulatory framework for organising teaching and learning activities with greater flexibility, allowing lecturers and students to participate in online learning, reduce the need for travel and support a more flexible and sustainable learning environment.

2

Article title

Implementation Plan for Online Teaching of Theory Courses at IUH's Main Campus

Article link

https://pdt.iuh.edu.vn/quy-che-dao-tao

Activity description

The IUH Academic Affairs Office issued a notice providing guidance on the implementation of online teaching for theory courses, covering up to 30% of instructional hours for Cohorts 18, 19, 20 and 21 at the University's main campus. The arrangement aims to improve the use of digital technologies while maintaining continuity in teaching and learning activities. By enabling remote participation in scheduled theory classes, online teaching can reduce the need for students and lecturers to travel to campus for those sessions, ease commuting demand during peak hours and provide greater flexibility in organising academic activities.

Temporary Transition to Online Theory Classes During the VNU-HCM Competency Assessment Examination

Article link

https://iuh.edu.vn/vi/thong-bao/thong-bao-v-v-nghi-hoc-trong-thoi-gian-to-chuc-ky-thi-danh-gia-nang-luc-dhqg-hcm-dot-2-ngay-24-5-2026-tai-cum-thi-truong-dai-hoc-cong-nghiep-tphcm-2195.html

Activity description

Under Notice No. 889/TB-ĐHCN dated 12 May 2026, IUH adjusted teaching and learning arrangements during the organisation of the Vietnam National University Ho Chi Minh City (VNU-HCM) Competency Assessment Examination, Session 2, held on 24 May 2026 at the University. Accordingly, theory classes at the main campus and the Nguyen Van Dung campus were temporarily moved to online delivery. Lecturers and students continued their scheduled academic activities remotely through the University's online learning management system. This arrangement maintained academic continuity while reducing the need for students and lecturers to travel to campus during the examination period.

11.4.4 Affordable housing for employees

Affordable housing for employees.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 4: Attracting and retaining qualified faculty and staff (Objective 4.3)	Increasing staff income (Enhancing annual welfare - Welfare satisfaction rate)	Formulate and issue Housing, Accommodation Support, and Rent Subsidy Policies for staff and faculty in difficult circumstances or low incomes; specifying clear subsidy rates and transparent review criteria.	Decision issuing University-level Employee Housing Support and Rent Subsidy Regulations; Approved monthly/annual financial support schedule.	Office of Human Resources and Administration, University Trade Union	Q1 – Q2/2025
Thrust 3: Modern facilities & Thrust 5: Financial autonomy	Affordable campus accommodation & Reasonable investment in human resources	Plan, allocate, and manage official residential rooms/apartments at dormitories and IUH campuses for young lecturers, experts, and workers at preferential/subsidized rates significantly lower than local market prices.	Catalog of official staff housing/dormitory room reserves; Approved preferential housing fee schedule (demonstrating below-market rates).	Office of Dormitory Management and Services, Office of Facilities Management, Office of Finance and Accounting	Q1 – Q3/2025
Thrust 4: Attracting and retaining qualified staff (Objective 4.3)	Increasing staff income (Maintaining competitive, equitable welfare) & Work environment	Conduct surveys and prepare a Housing Affordability Assessment report comparing average staff income at IUH with surrounding rental/property market prices.	Employee Housing Affordability Assessment Report 2025; Dataset comparing university-subsidized housing costs against local real estate market unit prices.	University Trade Union, Office of Finance and Accounting, Office of Human Resources and Administration	Q2 – Q3/2025
Thrust 5: Strengthening sustainable financial autonomy	Reasonable investment in human resources (Increasing HR investment; Increasing annual welfare funds)	Mobilize and disburse Welfare Funds, internal mutual assistance funds, or collaborate with partner banks to offer low-interest preferential credit packages for staff housing purchase or repair.	Approval document for Welfare Fund disbursements for staff housing difficulties; Partnership agreement for preferential interest rate housing loans.	Office of Finance and Accounting, University Trade Union	Q2 – Q4/2025
Thrust 4: Attracting and retaining qualified staff	Increasing staff income (Welfare satisfaction rate)	Summarize recipient rosters, funding statistics, and actual staff supported with rent subsidies or official housing in 2025; survey welfare satisfaction rates.	Housing Support Summary Report 2025: List of beneficiaries, total support budget/actual subsidy amounts, and satisfaction survey findings.	Office of Human Resources and Administration, University Trade Union	Q4/2025

Social Housing Policies and Access to Affordable Housing for IUH Staff and Employees

Article URL

https://ktx.iuh.edu.vn/vi/gioi-thieu-chung.html

Activity Description

Social housing policies under the 2023 Housing Law and its implementing regulations provide opportunities for eligible groups to access affordable housing, including cadres, civil servants, public employees and workers covered by the relevant provisions. For staff and employees of Industrial University of Ho Chi Minh City (IUH), these policies provide a legal framework for understanding eligibility requirements and procedures for purchasing, renting or rent-to-own social housing, subject to applicable regulations. Access to information and completion of the relevant procedures can help expand opportunities for employees to secure stable housing.

11.4.5 Affordable housing for students

Affordable housing for students.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 3: Modern, comfortable facilities	Affordable campus accommodation (% students in dormitory; % satisfaction with dormitory services)	Issue Dormitory Management Regulations and student room rate schedules for AY 2024–2025; conduct periodic benchmarking of IUH dormitory fees against local market rentals to ensure lower prices.	Decision issuing 2025 Dormitory Price Schedule; Benchmarking report proving dormitory costs are significantly lower than surrounding commercial rentals.	Office of Dormitory Management and Services, Office of Planning and Investment, Office of Finance and Accounting	Q4/2025
Thrust 5: Strengthening sustainable financial autonomy	Reasonable investment for community engagement & student life (Student Support Reserve: min 8% of tuition income)	Set aside and disburse housing support packages from the Student Support Fund: implementing 50%–100% dormitory fee waivers/reductions or living stipends for disadvantaged, disabled, or remote students.	Decisions granting dormitory fee waivers/reductions to disadvantaged students; Recipient list for 2025 housing support and financial disbursement vouchers.	Office Of Political Affairs And Student Support, Office of Finance and Accounting, Office of Dormitory Management and Services	Q2/2026
Thrust 3: Modern, comfortable facilities	Increasing student utility services & Infrastructure development and upgrades (Maintenance efficiency)	Renovate and maintain dormitory rooms, upgrade internet/phone infrastructure, self-study rooms, sports grounds, and living amenities; enhancing sanitation and security for resident safety.	Acceptance records for 2025 dormitory maintenance and repairs; Inspection report on utility conditions, sanitation, and fire safety in living areas.	Office of Planning and Investment, Office of Dormitory Management and Services	Q3/2027
Thrust 2: Promoting community connection and service	Diversifying communication media (Content diversification; Social media followers; Interaction counts)	Publicly publish all dormitory info on website/social media: admission quotas, priority criteria, published fee schedules, services, and scholarship/housing assistance packages for students.	URL links to public posts on dormitory pricing schedules and admission announcements on the IUH portal and dormitory website.	Office of Dormitory Management and Services, Information and Communitcation Center	Q3/2028
Thrust 3: Modern, comfortable facilities	Affordable campus accommodation (% satisfaction with dormitory services; % students in dormitory)	Conduct annual surveys on resident student satisfaction regarding service quality and price fairness; tabulate housed student numbers and financial aid recipients in 2025.	Summary Report on Student Housing Management and Support 2025: Resident student statistics, subsidized student counts, and satisfaction survey outcomes.	Office of Testing and Quality Assurance, Office of Dormitory Management and Services	Q3/2029

IUH Announcement on Dormitory Registration for the 2025–2026 Academic Year

Article link

https://ktx.iuh.edu.vn/upload/files/Thong%20bao%20DK%20%E1%BB%9F%20KTX%20nam%20h%E1%BB%8Dc%202025-2026.pdf

Activity description

In 2025, Industrial University of Ho Chi Minh City (IUH) enrolled 11,972 students out of 14,980 successful applicants. According to the announcement dated 18 April 2025, the University's dormitory provides approximately 2,800 places, including 1,200 places for first-year students and 1,600 places for students in their second, third and fourth years. The 1,200 places reserved for first-year students represent approximately 10.02% of the 11,972 newly enrolled students, indicating an on-campus accommodation capacity of around 10% for this cohort. The dormitory fee is VND 550,000 per student per month, collected for ten months of the academic year. Students can register for accommodation online through the IUH Dormitory Management Office website.

Article title 2

IUH Dormitory Fee Waivers and Reductions for the 2025–2026 Academic Year

Article link

Activity description

During the 2025–2026 academic year, Industrial University of Ho Chi Minh City (IUH) implemented a dormitory fee waiver and reduction policy for eligible students, particularly those experiencing financial difficulties, in accordance with the University's guidelines. The policy specifies cases eligible for a 100% dormitory fee waiver and groups eligible for fee reductions, subject to the applicable conditions. Under the decision dated 9 June 2026, the number of students approved for dormitory fee waivers or reductions was revised from 97 to 93, with total approved support amounting to VND 278,025,000. This policy helps reduce accommodation costs and supports financially disadvantaged students in maintaining stable living conditions during their studies.

11.4.6 Pedestrian priority on campus

Pedestrian priority on campus.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 3: Modern, comfortable facilities	Building a green campus & Upgrading infrastructure (Upgrading existing infrastructure)	Plan and issue the IUH Internal Traffic Circulation Map: establishing motor vehicle-free zones, dedicated connecting walkways between academic blocks, wide covered sidewalks, crosswalks, and protective bollards.	Campus Pedestrian Priority Map; Decision issuing internal campus traffic organization scheme.	Office of Planning and Investment, Office of Facilities Management, Center of System Management	Q1 – Q2/2025
Thrust 3: Modern, comfortable facilities	Enhancing utilities for disabled students (% student satisfaction considering allocated space areas)	Construct accessibility ramps, lay tactile paving tiles for visually impaired users, lower sidewalk curbs at intersections, and install pedestrian signage and lights along corridors.	Technical acceptance records for wheelchair ramps, barrier-free pedestrian infrastructure, and lighting systems ensuring night safety.	Office of Planning and Investment, Office of Facilities Management	Q2 – Q3/2025
Thrust 3: Modern, comfortable facilities	Increasing student utility services & Safe working/learning environment	Issue and enforce Motor Vehicle Management Regulations on campus: restricting vehicle speed below 10 km/h, limiting entry during peak class transitions, banning parking encroachment on footpaths.	Internal Traffic Safety and Motor Vehicle Control Regulations; Speed limit rule boards and traffic signs installed at gates and main routes.	Office of Human Resources and Administration, Office of Facilities Management	Q2/2025
Thrust 2: Promoting community connection and service	Enhancing active citizenship awareness activities (Educating student awareness on social issues and behavioral culture)	Launch the "Campus Walking Culture" movement and "Yield to Pedestrians" campaign; organizing student volunteer teams to assist traffic management at gates and crosswalks during peak hours.	Walking culture media plan; Photos of volunteer forces directing traffic and assisting disabled students on campus.	Youth Union – Student Association, University Trade Union	Q2 – Q4/2025
Thrust 3: Modern, comfortable facilities (Objective 3.1)	Student satisfaction level with space utility and campus safety	Conduct periodic internal traffic safety inspections in 2025; survey student and staff safety perception and walking convenience to plan infrastructure maintenance.	Campus Traffic Safety and Pedestrian Priority Assessment Report 2025; Inspection records and mitigation plans for traffic conflict points. Improving Campus Traffic Management and Pedestrian Safety

Article link

https://doantn.iuh.edu.vn/news.html%40detail%40220%40632%40Quy-dinh-noi-do-xe-cua-sinh-vi%C3%AAn-v%C3%A0-vi%C3%AAn-chuc%2C-nguoi-lao-dong-

Activity description

IUH implements campus traffic management measures to improve circulation and reduce congestion in shared spaces. The University coordinates vehicle parking arrangements, provides traffic guidance during peak periods and assigns relevant units to manage vehicle flows. These measures help maintain orderly movement within the campus and reduce conflicts between different transport activities. Clear parking arrangements and traffic management responsibilities contribute to a safer, more organised environment for students, staff and visitors. By improving campus mobility and supporting effective use of shared infrastructure, IUH promotes a more pedestrian-friendly learning environment and contributes to SDG 11 – Sustainable Cities and Communities.

Accessibility Map of the IUH Main Campus

Article title

Developing Accessible Pedestrian Pathways across Campus

Article link

https://tqa.iuh.edu.vn/sdgs-article-2/accessible-campus-facilities-for-people-with-disabilities-at-the-industrial-university-of-ho-chi-minh-city-iuh/

Activity description

IUH maintains pedestrian pathways and connecting corridors to improve mobility across its main campus. An Accessibility Map identifies suitable routes between academic buildings, entrances, elevators, restrooms and essential support facilities. The campus also provides ramps, wide corridors and accessible routes designed to support wheelchair users and people with limited mobility. These facilities reduce physical barriers and help students, employees and visitors navigate the university environment more independently. By integrating pedestrian accessibility into campus infrastructure, IUH strengthens inclusive mobility, promotes equal access to educational facilities and contributes to a safer and more sustainable campus environment under SDG 11.

11.4.7

Local authority collaboration regarding planning and development

Collaboration with local authorities regarding planning and development.

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 2: Promoting community connection and service	Enhancing community service projects Increasing external partner associations (Number of links; Staff participant count)	Sign formal cooperation agreements (MOUs)/coordination documents between IUH and Go Vap District People's Committee, Department of Planning and Architecture, and HCMC Department of Transport for urban spatial planning consulting.	Cooperation Agreement/MOU documents between IUH and local government authorities on urban planning, urban refurbishment, and sustainable development. Industrial University of Ho Chi Minh City Prepares to Develop a New Campus in Phuoc An

Article link

https://dongnai.gov.vn/vi/news/tin-dia-phuong/truong-dai-hoc-cong-nghiep-thanh-pho-ho-chi-minh-chuan-bi-xay-dung-co-so-tai-xa-phuoc-an-62455.html

Activity description

On 12 June 2026, a delegation from Industrial University of Ho Chi Minh City (IUH) met with local authorities in Phuoc An Commune, Dong Nai Province, to discuss plans for a new campus with a proposed area of 12 hectares and a capacity of approximately 8,000 students. During the meeting, IUH discussed the project's implementation progress and requested local government support for connecting electricity, water supply and transport infrastructure to the construction site, as well as coordination to maintain security and public order during construction. The meeting reflected direct collaboration between IUH and local authorities in preparing the campus development project, supporting educational infrastructure development and local workforce training needs.

11.4.8 Planning development – new build standards

Sustainable standards for new build projects.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 3: Modern, comfortable facilities	Upgrading existing infrastructure & Building a green campus (Participation in green campus project)	Formulate and issue internal Regulations on Sustainable Building Standards for new construction and renovation projects at IUH: referencing national (LOTUS/TCVN) or international standards (LEED, EDGE) for energy efficiency and eco-materials.	Decision issuing University-level Sustainable Design and Construction Guidelines/Regulations applicable to all new build and renovation projects at IUH.	Office of Planning and Investment, Institute of Environmental Science, Engineering and Management	Q1 – Q2/2025
Thrust 5: Strengthening sustainable financial autonomy	Reasonable investment in education and research (Infrastructure investment & maintenance) & Development Investment Fund	Integrate sustainability criteria into bidding documents and design/construction contracts for new buildings: committing to insulated glass, water-saving fixtures, LED lighting, and smart energy meters.	Technical design files, drawings specifications, and tender/construction contracts containing mandatory sustainability compliance clauses.	Office of Planning and Investment, Office of Finance and Accounting	Q2 – Q3/2025
Thrust 3: Modern, comfortable facilities	Building a green campus (Reducing power/water consumption rates); Advanced IT infrastructure (IoT)	Deploy smart Building Management Systems (BMS/IoT), install rooftop solar PV systems, and implement rainwater/recycled wastewater harvesting for landscape irrigation in new buildings.	Solar PV/BMS installation records; Technical acceptance report for energy and water-saving systems at newly completed facilities.	Office of Planning and Investment, Center of System Management, Institute of Environmental Science, Engineering and Management	Q2 – Q4/2025
Thrust 1: Pioneering in education and research	Enforcing research support policies & Promoting technology transfer	Organize advisory and independent appraisal workshops with green building consultants/experts to evaluate LEED/LOTUS/EDGE compliance for IUH new building project designs.	Sustainability appraisal reports from independent consultants; Green building pre-feasibility certificates or compliance assessment files.	Office of Planning and Investment, Institute of Environmental Science, Engineering and Management	Q3 – Q4/2025
Thrust 3: Modern, comfortable facilities	Building Green Campus (Reducing CO_2 emissions); Facility upgrade completion	Measure and prepare As-Built and Energy Efficiency Audit Reports for buildings commissioned in 2025, proving actual emission reductions achieved.	Final completion acceptance records confirming sustainable design compliance; Post-commissioning energy and water savings performance report. 11.4.8

Planning development – new build standards

Sustainability standards for new buildings.

ACTIVITY EVIDENCE

Article title 1

IUH Applies Energy Efficiency Requirements to Building Construction and Renovation

Article link

https://tqa.iuh.edu.vn/news-events/iuh-ensures-energy-efficiency-in-all-new-and-renovated-buildings/

Activity description

According to information published on 24 August 2023 on the University's Testing and Quality Assurance Office website, Industrial University of Ho Chi Minh City (IUH) places emphasis on energy efficiency requirements in the design, construction and renovation of buildings, with reference to Vietnam's National Technical Regulation QCVN 09:2017/BXD. The measures described include LED lighting, inverter air-conditioning systems, thermal insulation glazing and energy-efficient lighting equipment. The published information also states that more than 80% of the floor area of new buildings constructed since 2018 has incorporated energy-saving systems and materials. These measures demonstrate IUH's attention to technical requirements and energy efficiency solutions in the development of its facilities.

Article title 2

IUH Promotes Energy-Saving Solutions in Campus Construction and Facility Renovation

Article link

https://tqa.iuh.edu.vn/sdgs-article-2/iuh-chu-trong-giai-phap-tiet-kiem-nang-luong-trong-xay-dung-va-cai-tao-co-so-vat-chat/

Activity description

In the construction and renovation of campus facilities, Industrial University of Ho Chi Minh City (IUH) pays attention to architectural and technical solutions that support energy efficiency and effective building operation. The measures described include staggered shading roofs in common areas and vehicle parking spaces, LED lighting systems in classrooms and parking areas, and wall-mounted and ceiling cassette air-conditioning units in selected teaching and working spaces. The shading roofs help reduce direct solar exposure, while the air-conditioning systems provide cooling for indoor spaces. Together, these measures contribute to improving building conditions and supporting the sustainable management of campus facilities.

Industrial University of Ho Chi Minh City

GROUP 11.4 – SUSTAINABLE PRACTICES

SDG 11 SUSTAINABLE CITIES AND COMMUNITIES

11.4.9

Building on brownfield sites

Prioritizing building on brownfield sites where feasible.

Action plan

Strategic Direction (Thrust)	KPIs	Activities	Expected Results	Responsible Unit	Timeline
Thrust 3: Modern, comfortable facilities providing vibrant student life experiences	Infrastructure development and upgrades for teaching (Upgrading existing infrastructure: Actual vs planned completion)	Review Campus Master Plan and issue Policy prioritizing brownfield site reuse: directing new builds or expansions onto old foundations, developed land, or old workshops to minimize greenfield encroachment.	Decision issuing IUH Facility Planning Management Policy prioritizing brownfield redevelopment, effective in 2025.	Office of Planning and Investment, Office of Facilities Management	Q1 – Q2/2025
Thrust 3: Modern facilities & Thrust 5: Financial autonomy	Upgrading infrastructure; Reasonable investment in education and research (Actual vs budgeted spending)	Prepare project investment justification files for 2025 construction/renovation with site selection assessments: proving projects build on previously developed sites (with existing drawings and demolition records).	Project investment files with site appraisal minutes confirming brownfield status; Technical design files and before/after layout drawings.	Office of Planning and Investment, Office of Finance and Accounting	Q2 – Q3/2025
Thrust 3: Modern, comfortable facilities	Building a green campus (Waste conversion/recycling CO2 emissions); Infrastructure completion	Control environmental impacts during site clearance and demolition: executing recycling plans for C&D waste and remediating residual soil pollution prior to new construction.	Environmental site assessment report; Demolition solid waste management plan and handover minutes to building material recycling contractors.	Institute of Environmental Science, Engineering and Management, Office of Planning and Investment	Q2 – Q4/2025
Thrust 3: Modern, comfortable facilities	Upgrading infrastructure (Project completion in upgrading existing facilities)	Build a visual evidence archive: digitized land use maps, before-and-after photo series, demolition acceptance records, and land transfer documents proving prior land use history.	Visual archive file of before/after photos and current land use map of IUH campus for THE Portal verification auditing.	Office of Planning and Investment, Information and Communitcation Center	Q3 – Q4/2025
Thrust 2: Promoting community connection and service	Diversifying media (Content diversification)	Publicly publish sustainable facility planning orientations and brownfield redevelopment projects on website; compile 2025 summary report on campus land reuse practices.	URL links to published sustainable facility planning articles; Summary Report for 2025 on brownfield site construction practices at IUH.	Information and Communitcation Center, Office of Planning and Investment	Q4/2025

IUH Renovates and Develops a Building in the Go Han Area of Its Go Vap Campus

Article link

https://tqa.iuh.edu.vn/khong-phan-loai/iuh-cai-tao-va-phat-trien-cong-trinh-tai-khu-vuc-go-han-co-so-go-vap/

Activity Description

In 2025, Industrial University of Ho Chi Minh City (IUH) undertook and completed a construction project in the Go Han area, near Gate 4 on Nguyen Van Nghi Street, within the University's main campus. According to the project documentation, the site had previously contained buildings and associated infrastructure. The development plan included repairing and restoring the functionality of a long-used building, alongside constructing a new building unit to support university activities. Photographs taken before construction show remnants of earlier structures and construction elements at the site. The project demonstrates the development of university facilities on previously used land, contributing to the continued use of existing space and infrastructure at the Go Vap campus.

Redevelopment of the Former Tuoi Tre Printing Facility Site into a Multipurpose Complex on Nguyen Van Dung Street

Article link

https://tuoitre.vn/47-nam-thanh-lap-xay-dung-trung-tam-phuc-hop-bao-tuoi-tre-20220829145931373.htm

Activity Description

The site at 10 Nguyen Van Dung Street, Ho Chi Minh City, was previously used for printing operations by Tuoi Tre newspaper. Construction of the printing facility began in April 2008, and it became operational in late 2008. In August 2022, Tuoi Tre newspaper initiated the development of a multipurpose complex on the former printing facility site, creating a building for journalism, office activities and other functions. This redevelopment illustrates the transformation of previously developed urban land with an established history of construction and use. The completed complex subsequently became the subject of a facilities-sharing arrangement between Tuoi Tre newspaper and IUH, introducing educational and training functions to the site.

IUH Opens Its Nguyen Van Dung Campus, Expanding Teaching and Learning Facilities

Article link

https://tuoitre.vn/7-000-sinh-vien-truong-dai-hoc-cong-nghiep-tp-hcm-hao-huc-hoc-tai-co-so-moi-20250217160907779.htm

Activity Description

On 17 February 2025, Industrial University of Ho Chi Minh City (IUH) officially commenced teaching activities at its campus at 10 Nguyen Van Dung Street, Go Vap District, Ho Chi Minh City, following a facilities-sharing agreement with Tuoi Tre newspaper signed in October 2024. According to published information, more than 7,000 IUH students attended classes at the new campus on its first day of operation. The complex provides classrooms, multimedia teaching spaces and supporting facilities for educational activities. By using an existing building, IUH expanded its teaching and learning facilities, improved the utilisation of previously developed infrastructure and introduced educational functions to an urban site with an established history of development.

Industrial University of Ho Chi Minh City

IMPLEMENTATION RESULTS
OPERATIONAL EXECUTION IN VERIFIED DATA YEAR 2024–2025
Comprehensive Audit of Implemented Actions Across All 12 Indicators of SDG 11

SDG 11 SUSTAINABLE CITIES AND COMMUNITIES

1. ARTS, HERITAGE & OPEN SPACES (11.2)

Public Access & Exhibition Spaces (11.2.1–3):

• Promulgated Procedure No. 01/2026/QD-TV granting free public access to the Traditional Exhibition Room (5 zones, 70-year history) and Library.

• Logged 1,136+ external visitors: high school student delegations (An Giang, Ben Tre, Dong Thap) and global delegates (France, Japan, Australia).

Green Spaces & Local Cultural Arts (11.2.4–6):

• Maintained public vegetative lawns and shaded pedestrian pathways at the Main Campus and Quang Ngai Campus, welcoming local residents.

• Staged Freshman Music Concert at Military Zone 7 Stadium (>12,000 attendees) and 16 faculty arts galas under 'Sounds of Vietnam'.

• Hosted IUH Graduation Fashion Show 2025; established open digital archives preserving 70 years of institutional cultural heritage.

2. SUSTAINABLE COMMUTING & HOUSING (11.4.1–5)

Green Transport & Telecommuting (11.4.1–3):

• Audited 118 commuting profiles: 84.7% personal combustion vehicles, 14.4% green modes; 66.9% ready to shift if charging/shuttles expand.

• Enacted Academic Regulations (Decision 3162/QD-DHCN, Art. 8): permitting up to 30% online theory delivery to ease transit congestion.

• Deployed flexible remote learning during VNU-HCM competency exams, drastically mitigating urban traffic bottlenecks.

Affordable Housing Access (11.4.4 & 11.4.5):

• Facilitated workforce access to municipal social housing policies (2023 Housing Law) for junior lecturers and low-income personnel.

• Operated 2,800-bed dormitories (1,200 freshman beds ~ 10.02% intake) at VND 550k/mo; disbursed VND 278M in fee waivers to 93 students.

3. URBAN PLANNING & GREEN CAMPUS (11.4.6–9)

Pedestrian Priority Infrastructure (11.4.6):

• Enacted Campus Traffic Master Plan: demarcated covered pedestrian corridors, green-hatched walking paths, and vehicle-free zones.

• Enforced <10 km/h speed limits; built accessibility ramps and tactile crossings ensuring barrier-free transit for disabled learners.

Municipal Planning Collaboration (11.4.7):

• Partnered with Phuoc An authorities (Dong Nai) on the 12-hectare, 8,000-student campus master plan, synchronizing regional utility infrastructure.

New Build Standards & Brownfield Sites (11.4.8–9):

• Applied National Regulation QCVN 09:2017/BXD: solar shading, inverter AC, and low-E glass across >80% of newly renovated floor space.

• Prioritized brownfield redevelopment: revamped Go Han site and retrofitted the former Tuoi Tre Printing Facility into Campus 10 NVD (7,000+ students).

Industrial University of Ho Chi Minh City

PERFORMANCE BENCHMARKING

Benchmarking Results Against THE Impact Ratings 2026 (Previous Cycle vs. Current Audit Cycle)

SDG 11
SUSTAINABLE CITIES AND COMMUNITIES

Indicator Category	Previous Cycle (THE 2026)	Current Audit (THE 2027)	Strategic Evolution & Outlook
Category 11.2 Arts, Heritage & Open Spaces (23% Weight)	Public access to museum and library lacked formal decrees; cultural arts events had fragmented external visitor logs and fee policies.	Promulgated Procedure No. 01/2026/QD-TV (100% free access); audited 1,136+ external guests; hosted 12,000-person stadium gala & 16 festivals.	Public Heritage Institutionalization: Codified open access to architectural, historical, and library heritage for civic empowerment.
Indicators 11.4.1–3 Sustainable Commuting & Remote Work (27% Weight)	Commuting patterns lacked empirical surveys; distance learning and telecommuting provisions lacked explicit percentage ceilings.	Executed baseline commuting modal survey (118 profiles); enacted Decision 3162 allowing up to 30% online theory hours to curb transit emissions.	Data-Driven Modal Shift: Grounded sustainable commuting in verified baseline metrics, deploying blended learning to ease urban peak traffic.
Indicators 11.4.4–5 Affordable Student & Staff Housing (23% Weight)	Lacked market-benchmarked evidence proving dormitory affordability; informal workforce social housing support frameworks.	Verified 2,800-bed dorm capacity (10.02% freshman intake) at VND 550k/mo (50% below market); disbursed VND 278M in fee waivers to 93 students.	Affordable Housing Validation: Satisfied THE denominator benchmarks for student housing capacity and audited financial relief.
Indicators 11.4.6–9 Green Buildings & Brownfield Sites (27% Weight)	Building expansions lacked explicit green code benchmarks; facility projects lacked documented prior land-use history (brownfield proof).	Enforced QCVN 09:2017/BXD energy code across >80% of new floor areas; co-planned 12-ha Dong Nai campus; repurposed Tuoi Tre printing facility into Campus NVD.	Sustainable Urban Infrastructure: Maximized brownfield adaptive reuse, cut greenfield sprawl, and synchronized urban regional master planning.

Industrial University of Ho Chi Minh City

STRATEGIC PLAN FOR THE COMING YEAR

Four High-Impact Action Pillars to Position SDG 11 as a Premier Scoring Asset for IUH's Global Rank

SDG 11
SUSTAINABLE CITIES AND COMMUNITIES

1. CIVIC HERITAGE ACCESS & CAMPUS GREEN SPACE MAPPING

- Formally codify the 100% Free Public Heritage & Library Access Policy for external citizens, researchers, and school pupils.
- Publish an interactive 'Campus Green & Public Heritage Map' online, detailing open public grounds, walking tracks, and operating hours.
- Institutionalize annual public arts galas, the Graduation Fashion Show, and community cultural festivals across campus amphitheaters.
- Deploy an immersive 3D Virtual Heritage Tour showcasing IUH's 70-year educational evolution on the open digital library repository.

2. SUSTAINABLE COMMUTING POLICY & EV INFRASTRUCTURE

- Enact the 'Sustainable Campus Mobility Framework 2026–2030', targeting a 35% public transit and electric vehicle modal share.
- Install smart EV two-wheeler charging hubs and solar-canopied sheltered bike parking across all operational campuses.
- Operate zero-emission shuttle links connecting dormitories with Main Campus and Campus 10 NVD; subsidize student public transit passes.
- Embed real-time municipal bus tracking and student ridesharing/carpooling features directly within the institutional IUH Mobile App.

3. AFFORDABLE STUDENT HOUSING & WORKFORCE SECURITY

- Expand student housing capacity to accommodate at least 12% of annual incoming freshmen at highly competitive, below-market rates.
- Mandate student support reserves guaranteeing 50%–100% dormitory waivers for all disabled, orphan, and low-income rural learners.
- Partner with the Ministry Trade Union and public banks to deploy preferential housing micro-credit schemes for junior academic staff.
- Institutionalize an annual commercial rental benchmark survey to ensure campus housing remains significantly more affordable than local market rates.

4. BROWNFIELD REDEVELOPMENT & CERTIFIED GREEN BUILDS

- Enact the 'IUH Green Building Charter' mandating LOTUS/EDGE energy certifications for the 12-hectare Phuoc An (Dong Nai) expansion.
- Maintain strict institutional preference for brownfield site revitalization, preventing urban sprawl and preserving natural greenfield ecosystems.
- Upgrade smart sensor LEDs, thermal-barrier double glazing, and rainwater harvesting across all renovated academic wings.
- Commission interdisciplinary faculty research transferring urban flood mitigation models and permeable pavement solutions to municipal authorities.
